- Transparency in programme design and implementation, including institution building and capacity strengthening
- Accountability of government functionaries and the community
- Partnerships with industry and other stakeholders
- Community self-reliance, self-dependence, self-help and mutual-help

Guiding Principles

- The core belief of National Urban Livelihoods Mission (NULM) is that the poor are entrepreneurial and have innate desire to come out of poverty. The challenge is to unleash their capabilities to generate meaningful and sustainable livelihoods.
- NULM believes that any livelihood promotion programme can be scaled up in a time bound manner only if driven by the poor and their institutions. Such strong institutional platforms support the poor in building up their own human, social, financial, and other assets. This in turn, enables them access to rights, entitlements, opportunities and services from the public and private sectors, while enhancing their solidarity, voice and bargaining power.
- As per the Constitution (74th Amendment) Act, 1992, urban poverty alleviation is a legitimate function of the Urban Local Bodies (ULB). Therefore, ULBs would need to undertake a lead role for all issues and programmes concerning the urban poor in cities/towns, including skills and livelihoods.
- NULM would aim at universal coverage of the urban poor for skill development and credit facilities. It will strive for skills training of the urban poor for market-based jobs and self-employment, facilitating easy access to credit.
- Street vendors constitute an important segment of the urban population. Street vending provides a source of self-employment, and thus acts as a measure of urban poverty alleviation without major Government intervention. They have a prominent place in the urban supply chain and an integral part of the economic growth process within urban areas. NULM would aim at facilitating access to suitable spaces, institutional credit, social security and skills to the urban street vendors for accessing emerging market opportunities. Accordingly, NULM would aim at providing shelter equipped with essential services to the urban homeless in a phased manner.
- NULM would place a very high emphasis on convergence with schemes/programmes of the relevant line Ministries/Departments and programmes of state governments dealing with skills, livelihoods, entrepreneurship development, health, education, social assistance, etc. An alliance strategy will be sought with all concerned departments to promote skills training of rural-urban migrants as a bridge the gap between the livelihoods of the rural and urban poor.
- NULM would aim at partnership with the private and civil society in providing shelters, skill training, and also in facilitating technological, marketing and hand holding support for the urban poor entrepreneurs who want to be self-employed and set up their own small businesses or manufacturing units.

Monitoring of the Scheme

The Ministry had developed an online web based Management Information System (MIS) for the purpose of monitoring real time and regular progress of the scheme. MIS was launched on 20 January 2015. MIS also enables stakeholders such as training providers, certification agencies, banks, resource organizations to feed required information directly which can be accessed by urban local bodies, States and Ministry of HUPA for monitoring and other purposes and to track the progress.

Moreover, for effective monitoring of the implementation of the scheme DAY-NULM Directorate regularly conduct review meetings and video conferences with the State/UTs.
